## Is This One Of Those Investment Scams That Would Promise A 30% Profit In A Month?

This is perhaps one of the most common questions you will ask me whenever I talk about my savings and investing strategies.

I cannot blame you for that. A lot of people including some of my close friends are victims of investment scammers and pyramiding. **This is not an investment scam** that you often see on television news or read in newspaper.

**I want to be frank and transparent with you.**

This is **not a get rich-quick-scheme**. I am going to teach you how to strategize on saving your hard earned money and to invest smartly.

Everything will be based on your ***“Mindset, Money and Method”*** to keep going.

No worries! I will provide you the step-by-step procedure to get started.

I am talking about how you can be one of the owners of big companies that you just see in different advertisements and just dream of owning it.

Don't get me wrong. You have exactly read it right. Here is the best thing about it; you can grow your money fuller while sleeping and not worry much on any computations of the companies like any other businesses do.

I am talking about saving your money and investing it in the Philippine Stock Market and, Kaboom! You can make hundreds, thousands or even millions depending how sincere you are to follow what I am about to divulge - **The Fuller Method**.

**DISCLAIMER:** I cannot guarantee you that you will become an instant millionaire over night. But, you can earn millions if you take actions from what I am going to share with you. Believe me; these are just simple and easy steps. All chosen stocks stated herein are merely examples only for you to easily understand how stock market works. I don't guarantee that you will earn the exact amount stated in the examples. Please understand that results are not typical nor expected for every person. Your results may vary depending on many factors...including but not limited your desire, background, knowledge, experiences, and application.

## How Fast Can I Make Money On This?

**That is absolutely up to you.** You can potentially make ₱5,000.00 in just a month, ₱50,000.00 in a year or your ₱250,000.00 can be ₱1,800,000 in

a span of 10 years. *(Take note, I used the word "potential" because I don't guarantee that you're going to earn this amount.)*

Wow! Instantly you can pay in full for a housing loan, business loan or it can be for college tuition fees and allowances of your children.

For whatever purpose it may be, the best thing about this is your **sincerity in believing that this method will work best for you.**

Again, that is entirely up to you.

What you are reading right now is not the usual free downloadable eBook you get from the internet.

In this special course, I will teach you **EXACTLY** how I earned:

- About ₱75,000.00 from a company without buying **even a single share of stock** from them.
- ₱7,247.50 in just one day.
- ₱209,786.10 accumulated cash dividends.

**I am now going to reveal the 7 Secrets of The Fuller Method** on how I did it, and the **BEST** part of it is **YOU** can exactly do the same.

## Who is the person behind the Fuller Method?

Before we get started, let me introduce myself.

My name is Cynthia Fuller. I am a Filipino, a wife and a mother of two kids. By profession, I am a registered chemist. Also, I am the founder of The Fuller Mind.

My mission is to provide Pinoys the basic knowledge and information on stock market investing and be engaged in the applications of all the methods that you can get. I believe that, having the right mindset on self-discipline; all Filipinos can save, invest and make more money to achieve financial freedom.

## **Secret #1**

### ***My Big Whys***

Seriously, I **was not born rich** and I had my fair share of financial struggles.

My father lost his job when he got a stroke in 1996 that caused more financial difficulties. College tuition fees and allowances were given by my generous aunts and uncles.

When I became a regular employee in my second job, I did not prioritize buying gadgets or clothes that would make me look rich. It was like ***I would rather be rich than sexy*** because of my experiences on financial issues. **All I wanted is to save, invest and make money so I would never ever again be a burden to anybody else.**

You can check my blogs on my journey to achieving financial freedom. Here's the link to all my blog posts: <https://www.thefullermind.com/blog>.

[Start Retiring The Day You Start Earning](#)

[A Genuine Love From A Mother's Heart \(The Fuller Mind Speaks On Family And Financial Advocacy\)](#)

## **Secret #2**

### ***“Mindset, Money and Method”***

In 2001, after a year of being a regular employee, I got the privilege to buy shares of the company. I bought 2200 shares for ₱45.49 per share on May 31, 2001 amortized through salary deduction and payable in five years. **My stock market investing and awareness started** there.

I could **make a profit in the Philippine Stock Market** investing without quitting my job. I enjoyed the following earnings from:

- Stock dividend
- Cash dividend
- Price Appreciation/Capital Gain

*“Mindset, Money and Method”*; having all these three helped me realized that nothing is impossible in achieving your future goals.

*“Money, Method and Mindset”* are the 3Ms of successful investing according to Adam Khoo. He is the Chairman of the Adam Khoo Learning technologies Group, one of Asia’s largest private training companies that operate in seven countries. He is also a professional stocks investor and investment advisor.

Khoo, A. (2017) *The Stock Market Basics Method Money Management Mindset How To Really Make Money From The Stock Market*. Accessed in 2017 through [www.wealthacademyglobal.com](http://www.wealthacademyglobal.com)

## ***Secret #3***

### ***Educate Myself on Stock Market Investing***

To better understand stock market I went to four series of seminars. I felt the excitement every Saturday because that would mean **new lessons and meeting new people with the same goal as mine**. I never minded the traffic and the hassle of travelling for six hours just to be at the venue before the seminar begins. I invested real time and effort in learning more about the stock market.

I would like to **share with you in this free eBook some of what I've learned and experienced since 2001**.

Now let's discuss about....

### **How To Work Less, Earn More and Grow Your Money FULLER from the Philippine Stock Market While Sleeping**

In my opinion, the Philippine Stock Market investing is one of the best investment options to maximize your gain. Before I talk about the benefits, let me first explain briefly the Stock Market Investing.

## What is a Stock Market?

You can compare it with “*palengke*”. *Ano ba ang makikita mo sa palengke?* Canned goods, fruits, meats, vegetables, drinks, junk foods, rice and many more.

In stock market, what you can buy are company shares, like Jollibee Foods Corporation, SM Prime Holdings Inc., SM Investments Corporation, Manila Electric Company, BDO, Ayala Land Inc., San Miguel Corporation, Megaworld Corporation and etc.

May tinatawag tayong blue chip companies. Thirty giant companies are considered by the Philippine Stock Exchange as blue chip. These are good to buy especially for long term investment.

## How can you get shares from these companies?

You need a stock broker to help you place your orders. Stock broker acts as the middleman. *Halimbawa ang isang company ay hinati sa one million shares. Kung ikaw ay bumili ng 50,000 shares, ikaw ay may ari ng 5% ng buong kumpanya.*

## Why these companies are selling their shares?

These companies need additional capital for expansion or engage in a profitable investment within the company. So as an investor you buy

shares from them and become one of the owners you get profit through dividends and stock appreciation.

So, why I am thrilled sharing this with you? Keep reading!

### Ten Advantages of Investing In Philippine Stock Market

- 1. Accessible.** With online stock broker, there is no need to go to your broker to request for the status of your account. You can access your portfolio to transact anytime and anywhere through your personal computer or mobile phone.
- 2. Convenient.** No need to go to the office of the broker to fund your account. Once your bank account is funded, you can transact through online banking and in thirty minutes or less you can buy shares of any big companies you want (except on weekends and holidays).
- 3. Easy To Start.** A ten year old child can begin investing with the guidance of his parents. Parent is the primary account holder in this case. Sooner, the child could do and manage it on his own when he is old enough. Because anyone who desires to learn could gain the right skills and strategies used by successful investors.

4. **Doesn't Require A Big Capital.** You can open an account for as low as ₱1,000.00 and you can start investing and keep funding it as you go along.
5. **You Can Be One of the Owners of Big Companies.** By buying even as low as ten shares of the company, let's say Jollibee Foods Corporation (JFC), you can already tell your friends that you owned a small part of Jollibee. You can now be one of the proud owners of it.
6. **Beat The Banks.** It can give you a good profit if you gain knowledge and experience. It all depends on how you would discipline yourself on saving and your diligence to follow the Fuller Method of investing.
7. **Minimal Charges.** In the stock market charges are minimal. The total charge of buying and selling transactions is not more than 1.5% of the gross trade amount.
8. **Grow Your Money FULLER While Sleeping.** This one will best be achieved if you select good companies with good fundamentals. I am giving you an idea on how to create a passive income by letting your money work for you. You will not be stressed in working and managing the operations of the company to make it grow and productive. You are a stockholder not an employee of the company. You just need to manage the performance of your OWN account and wait for the time to gain profits. Like me, you will be enjoying the regular cash dividend.

**9. No Need to Quit Your Job Yet.** Everybody is so busy with our own family, work and other stuff. Viewing your account would not take thirty minutes of your time. You can check your portfolio everyday, twice or thrice a week, once or twice a month. Again, this will vary depending on the schedule of every person. You can set your own schedule.

**10. Achieve Financial Freedom.** Stock Market investing is one of the many ways of creating a passive income, thus it will help you achieve financial security. However, this is not the end of the road to financial freedom. You must continuously educate yourself on financial literacy as well. Once you earned and got proofs to show, share the knowledge with your family, friends and relatives. Spread the good news! Educate them little by little until they begin to follow your footstep.

## ***Secret #4***

### ***Constant Saving and Investing***

#### **Why I Was Hooked To This Profitable Stock Market Investing?**

Remember my story on how I began in stock market investing? I promised myself not to be a financial burden to anybody else but rather be a good **financial Samaritan** to other people. You may read my blogs to know the full story.

I maximized my net disposable income or credit limit to buy shares of stock that I've mentioned earlier that was amortized through salary deduction.

#### **So, what is the good news for you?**

You don't have to be an employee of a blue chip company to acquire shares. You can follow my method and mindset as well; all you need is self discipline. Save part of your monthly income or bonuses regularly then invest it monthly in the stock market and kaboom you can now make money.

There are several brokers that offer online trading. All you have to do is to visit their website and search for their requirements to open an account. It wouldn't take one month for you to get an account once you submit to them all your necessary documents.

Here are the websites of some online brokers:

[www.bpitrade.com](http://www.bpitrade.com), [www.colfinancial.com](http://www.colfinancial.com), [www.philstocks.ph](http://www.philstocks.ph),  
[www.firstmetrosec.com.ph](http://www.firstmetrosec.com.ph), [www.bdo.com.ph/bdonomura](http://www.bdo.com.ph/bdonomura)

I also have an online trading account under COL Financial Group Inc. which I started in November 2010.

My blogs not only aim to help you solve your financial struggles but also to inspire and empower you. Here's the link again in case you've missed the first one: <https://www.thefullermind.com/blog>

## Secret #5

### *You can earn through Price Appreciation*

It is the increase in the stock market value at a specific period. *Kung umuunlad ang kumpanya na binilan mo ng "share", panigurado kasama ka nila sa pag-unlad.* In most cases, an increase in market value happens over the long term.

Below is an example of an uptrend Price Chart of Ayala Land Inc. (ALI)

To give you a more detailed explanation on the above chart, let the figures explain this further. Please note that the percentage of charge (it was computed before the TRAIN Law was implemented in 2018), used was based from COL Financial. Sales Tax since January 2018 has increased from 0.5% to 0.6% of the gross trade amount.

**BUY**

Number of shares = 3000.00

Price per share = Php33.68

Charge, 0.295% = Php298.00

Capital = Php101,040.00

**Total Amount Invested = Php101,338.00**

**Computation:**

$3000.00 \times \text{Php}33.68 = \text{Php}101,040.00$

$\text{Php}101,040.00 + \text{Php}298.00 = \text{Php}101,338.00$

If you have bought 3000 shares of ALI at ₱33.68 per share on April 4, 2017, your total capital inclusive of all charges is ₱101,338.00.

**SELL**

Number of shares = 3000.00

Price per share = Php40.97

Charge, 0.795% = Php977.00

**Total = Php123,887.00**

**Computation:**

$3000.00 \times \text{Php}40.97 = \text{Php}122,910.00$

$\text{Php}122,910.00 - \text{Php}977.00 = \text{Php}121,933.00$

**Profit/Gain:**

$\text{Php}121,933.00 - \text{Php}101,338.00 = \text{Php}20,595.00$

If you have sold all 3000 shares of ALI for ₱40.97 per share on June 2, 2017, your profit is ₱20,595.00. That is a whopping

**20.32% net gain** (inclusive of charges) or **21.64%** (excluding all charges) in a span of almost two months. It is how we cautiously **“beat the banks”**.

**But**, the market value of a stock may decrease due to several market conditions such as low in demand, economic crisis and so forth. A trader and an investor have to be aware of world news because the Philippine economy is also affected.

**Below is an example of a downtrend Price Chart of Philex Mining Corporation (PX)**

***Let me give you one more secret....***

## Secret# 6

### *Let us just relax and wait for the regular Cash Dividends*

Dividends are given by the company to reward its investors through cash dividends or by issuing stock dividends to hold onto its existing liquidity to finance other investments which is profitable to the company.

Since 2001, I am used to a quarterly SMC cash dividend of ₱0.35 only per share. But, SMC gave one time a ₱5.35 per share. Look at the proof, scroll down a little bit.

|                                                                       |   |                  |
|-----------------------------------------------------------------------|---|------------------|
| Stockholder Account Number                                            | : |                  |
| Payment Sequence Number                                               | : |                  |
| Cash Dividend Declaration Date                                        | : | Jul 27, 2010     |
| Record Date                                                           | : | Aug 10, 2010     |
| Payment Date                                                          | : | Aug 25, 2010     |
| Rate per Share                                                        | : | P 5.35           |
| Number of Shares                                                      | : | 2,600            |
| Gross Dividend Amount                                                 | : | P 13,910.00      |
| Less: Tax Withheld                                                    | : | P 1,391.00       |
| Net Dividend Amount                                                   | : |                  |
| TWELVE THOUSAND FIVE HUNDRED NINETEEN PESOS & ZERO CNTVS( P12,519.00) |   |                  |
| Credit to Bank                                                        | : | BANK OF COMMERCE |
| Bank Account No.                                                      | : |                  |
| Amount to be Credited                                                 | : | P 12,519.00      |

***Here is my last secret for you...***

## **Secret# 7**

### ***Wait There's More: Profit from Stock Dividends***

That's not all; SMC gave me 10% of my total SMC stocks. What I actually received was shares of Top Frontier Investment Holdings (TFHI) not SMC. I sold my TFHI shares and instantly got around ₱75,000.00. As of June 19, 2017 (the amount varies everyday) TFHI was ₱305.00 per share. So, if I didn't sell my TFHI, the amount would have been ₱266,875.00. But this is my profit from a company which I never acquired. I have no regret of selling it at a lower price because I used the money in business. Isn't it exciting and amazing how all these happened?

**This kind of stock dividend is not always the case. My experience is one of very few cases in issuing stock dividends. Normally what happens is that the company issues its OWN shares. Please note that most of the times, the company does not issue shares of other company (like on my experience).**

I got all these just by saving and investing and I don't look at my stock portfolio everyday or even every week. I am more of an investor not a full time trader. How about you?

## Would You Be A Quick Trader Or A Long-Term Investor?

Let me guide you on discovering yourself which category you may fall. Who knows? You can earn more as a short-term trader rather than a long-term investor. We would never know until you get there. There is no harm in trying both. I did both, but because of my busy schedule, I cannot watch the market frequently so I decided to be an investor instead.

Every successful investor, trader, money manager, etc. has a method that fits them. The method itself is not the important factor but, how the system will work for your unique personality.

This is the method I used but every trader/investor must establish a strategy that works best for you too.

### A SHORT-TERM TRADER

Buy and sell in the morning

Study at night

Monitor stocks at least twice or thrice a week

Trade a maximum of ₱100,000.00 (it depends on your budget)

Trade 3 to 5 stocks only

*Note: A trader can maximize gain by understanding the technical analysis. It is a method of analyzing statistics (using a chart) made by market activity.*

## A LONG-TERM INVESTOR

Buy and sell in the morning

Study at night

Monitor stocks once a week/month

Buy the best stock from the chosen sector

*Note: An investor can maximize gain by understanding the fundamental analysis, macroeconomics, valuation and other factors to help you decide if the company is worth buying or not.*

As much as possible I don't withdraw my earnings, instead, I used it to buy more shares of stocks.

Now, would your schedule permit being a short-term trader? Otherwise, you can just be a long-term investor.

Listen! This is very important: buying and selling signals for short-term and long term-trading are different. Basically, a long-term investor shall not adapt the strategies of a quick trader.

## HOW TO GET STARTED IN JUST FOUR EASY STEPS

Let us discuss the four simple steps on how to start in the Philippine Stock Market Investing. I have compressed all the topics so you can get all the important information that a beginner should understand.

Here are the steps:

1. Open an online trading account.
2. Fund your account.
3. Buy your first stock from a company of your choice.
4. Sell your stocks.

Now you are going to ask me. *“Cynthia, the four steps you gave me are very basic”*. Relax, I will discuss it further.

### STEP# 1: OPEN AN ONLINE TRADING ACCOUNT

You will need a traditional broker or online broker to get you started. You cannot do it on your own. The broker will help you place buy or sell orders on your behalf in the Philippine Stock Exchange (PSE). PSE is the only stock exchange in the Philippines.

Basic requirements are very easy to accomplish.

- You just need to download the forms from the website of your chosen online broker.
- Fill up the forms completely. Take note of the signature portion. That would be very important otherwise your application will not proceed immediately. (Other online broker like BDO Nomura doesn't require a hard copy of the application form. The only requirement here is an online BDO account.)
- Submit via courier or hand carry the forms together with the basic requirements to your preferred chosen broker.

No worries, it is a one-time application only. All transactions such as funding your account, buying/selling stocks and withdrawing your money can all be done online.

COL Financial Group Inc. formerly Citiseconline, is my broker. Its customer service can easily be reached through phone call or email. They will respond to you immediately. I haven't encountered any problem since the day I started investing there. You may want to consider visiting their website: [www.colfinancial.com](http://www.colfinancial.com) and click "Open An Account" to download all the forms.

## STEP# 2: FUND YOUR ACCOUNT

Online brokers will allow you to do all your transactions via online as well.

Your online trading account can be funded by making a bank deposit. This has no difference in paying for your bills through a bank.

- Go to any branch of BPI, BDO or Metrobank, Chinabank and Asia United Bank.
- Fill out the Payment slip with your name, account number, name of the broker and amount to be deposited. Account number, will be provided to you by your chosen broker via email once your trading account is approved.
- The amount deposited will be transferred directly to your online trading account within the day.

I am using BDO and sometimes Metrobank online banking for fund transfer. You can enroll your trading account as merchant and fund it online through bills payment. This would be very easy and convenient for you.

## **STEP# 3: BUY YOUR FIRST STOCK FROM A COMPANY OF YOUR CHOICE USING COL FINANCIAL**

Since my broker is COL Financial Group Inc., what I will be giving you is the step-by-step procedure of my broker.

But, the good thing about online brokers, they will provide you all the steps that could also be found in their websites.

Follow these simple and easy steps during the trading hours (9:30 AM–12:00PM; 1:30 PM - 3:30 PM):

- Log-in to your online trading account.
- Click “Quotes”
- Click “Stock List”  
(You choose the stock symbol of the of the company you want to buy)
- Go to “Trade”.
- Click “Enter Order”
- Choose “Buy” from” Transaction”
- Choose “Main” from “Board”
- Choose “Day” from “Term”
- Type in the “Stock Code” of the company you want to buy
- Take note of the “price” and “size” from the “Ask”.

Example of the current price and size are:

| MEGAWORLD CORPORATION |           |        |        |           |    |
|-----------------------|-----------|--------|--------|-----------|----|
| Bid                   |           |        | Ask    |           |    |
|                       | Size      | Price  | Price  | Size      |    |
| 24                    | 1,364,000 | 4.5100 | 4.5400 | 129,000   | 6  |
| 27                    | 1,220,000 | 4.5000 | 4.5500 | 37,000    | 3  |
| 4                     | 23,000    | 4.4900 | 4.5600 | 7,000     | 1  |
| 8                     | 137,000   | 4.4800 | 4.5700 | 328,000   | 12 |
| 7                     | 28,000    | 4.4700 | 4.5800 | 2,083,000 | 18 |

- For example you choose MEG and your Buying Power is ₱5,000.00.
- You want to buy MEG at 4.54.
- You divide ₱5000.00 by 4.54. Check the lower right portion of the webpage and look for the board lot. All companies have a board lot. It is the minimum number of shares that can be traded per stock which is set by the Philippine Stock Exchange. MEG's board lot is 100; therefore you can buy a maximum of 1000 shares only.
- Type in 1000.00 and 4.54 in the "# of shares" and "price", respectively.
- Click "preview order" to review your order and from here you will get to see all the actual charges you made from that specific transaction.
- Type your password
- Click "Place Order"
- Click "Trade" then "Portfolio"

- Check your “Account Balance” and “Buying Power”, the amount shall decrease based on the number of shares you bought.
- Wait for an email from your stock broker regarding the details of this transaction

*Wow!!! You have now become part-owner of Megaworld Corporation.*

### **Steps for buying stocks during the off trading hours:**

- Log-in to your online trading account.
- Click “Quotes”
- Click “Stock List”  
(You choose the stock symbol of the of the company you want to buy)
- Go to “Trade”.
- Click “O-H Order”

The succeeding steps are quite the same during the trading hours.

## STEP# 4: SELL YOUR STOCK

Be warned that the price of each stocks vary everyday or even within the day. You can sell anytime once you are happy with your earnings or you may want to hold it for long term depending on your future goals. ***So think first before you sell.***

The steps in selling are very similar to step 3:

- Log-in to your online trading account.
- Click “Trade”
- Click “Enter Order”
- Choose “Sell” from “Transaction”
- Choose “Main” from “Board”
- Choose “Day” from “Term”
- Type in the “Stock Code” of the company you want to sell
- Take note of the “size” and “price” from the “Bid”.
- For example you choose to sell 5000 shares of MEG.

The current price and size are:

| MEGAWORLD CORPORATION |         |        |        |         |    |
|-----------------------|---------|--------|--------|---------|----|
| Bid                   |         |        | Ask    |         |    |
|                       | Size    | Price  | Price  | Size    |    |
| 8                     | 213,200 | 5.2900 | 5.3000 | 154,800 | 6  |
| 16                    | 281,200 | 5.2800 | 5.3100 | 218,900 | 6  |
| 12                    | 320,600 | 5.2700 | 5.3200 | 141,100 | 7  |
| 9                     | 247,600 | 5.2600 | 5.3300 | 416,900 | 7  |
| 10                    | 132,800 | 5.2500 | 5.3400 | 367,400 | 10 |

- You want to sell MEG at 5.29 per share.
- Type in 1000.00 and 5.29 in the “# of shares” and “price”, respectively.
- Click “preview order” to review your order and from here you will get to see all the actual charges you made from that specific transaction
- Type your password.
- Click “Place Order”
- Click “Trade” then “Portfolio”
- Check your “Account Balance” and “Buying Power”, the amount shall increase based on the number of shares you sold.
- Wait for an email from your stock broker regarding the details of this transaction

*Bravo!!! You have now received your first earnings from MEG.*

### Steps for selling stocks during the off trading hours:

- Log-in to your online trading account.

- Click “Trade”
- Click “O-H Order”

The succeeding steps are quite the same during the trading hours.

***Wait! There’s more for you...***

Now that you have an account and funded it already, you do not know which company to buy. There are over 300 companies listed in the PSE.

The good thing in this eBook is it gives you bonuses:

## ***Bonus# 1***

### ***“How To Pick The Best Stocks And Avoid The Worst Ones”***

#### **Invest Only In Good Companies**

Know the Fundamental Analysis of these good companies. These blue chip companies we believe will be there for the next 50 years or more. A good example of this is JFC. JFC on February 4, 2011 was ₱72.80 per share only. As of June 19, 2017, per share of JCF is already ₱216.00.

Here is the website of the PSE to check for the blue chip companies:

[www.pse.com.ph](http://www.pse.com.ph)

## Invest In One Company Of Your Chosen Sectors

Some of these sectors are:

- Food, Beverage and Tobacco
- Property
- Holding Firms
- Banks
- Retail
- Telecommunications
- Electricity, Energy, Power and Water

For a beginner, you may begin with 1 to 2 sectors depending on your savings. Diversify later when your saving is enough to buy one from each sector.

## How To Choose A Company Per Sector:

You may check the Business section of the newspaper, there is a page for Philippine Stock Exchange. All companies are categorized per sector. You can also verify it in your online trading account.

For example, the companies listed under “Banks” are Asia United Bank, BDO, BPI, Chinabank, East West Bank, Metrobank, PNB, RCBC, Security Bank and so on. You can buy BDO shares only, if you think among these companies, BDO has the best fundamental analysis.

You can have the confidence in choosing a stock with good fundamentals if you're committed to learn and gain more knowledge about the stock market.

## ***Bonus# 2***

### ***“When Is The Best Time To Buy And Sell Your Stocks”***

#### **The Best Time to Invest Is Now**

If you are aiming for the long term, today is the best time to invest. It is hard to time the stock market for a beginner because it has its uptrend, downtrend and sideways trend. The price of each stock increases and decreases because it is generally affected by the economic crisis and other factors.

A wise investor should think of investing more when there is a crisis and recession wherein the assessed fair market value is higher than the current

market price of the stock. These mean, the market price of almost all stocks, even good companies would go down. You can realize your gain over the long-term especially if you know how to choose the best stock for long-term investing.

Buy more and hold your existing stocks then shut down your computer or sign out immediately from your online trading account. A successful investor knows how to control emotions when you see red flag in your portfolio or there's a sudden drop in the stock price. The *menopausal stage* won't take too long if you have invested in good companies.

In just 30 pages I divulged to you the secret of The Fuller Method on how to save, invest and make money from the Philippine Stock Market.

**“What do you do next?”**

**It is now your time to take action and make more money in the coming years.**

**If you're already committed to apply what you've learned from this eBook, you may visit:**

*for Digital Copies:*

*The Fuller Method Playbook (TFMP)*

**<https://www.thefullermind.com/sm1>**

*The Fuller Mind Academy Stock Market Masterclass (TFMA SMMC)*

**<https://www.thefullermind.com/tfma-smmc>**

*The 30-Day Stock Market Beginner Bootcamp (30-Day-SMBB)*

**<https://www.thefullermind.com/30-day-smbb>**

The abovementioned links will help you understand better the stock market. These were made ONLY for **beginners** and **little knowledge** about the stock market to help you decide with confidence on how to choose the BEST stock and how to identify the BEST TIME to BUY and SELL stocks. The eBook and video courses are newbie-friendly, simple, easy-to-understand, easy-to-follow, detailed and informative. Also, I'm honestly telling you that these guides/training systems are **NOT for you** if you think you have enough knowledge about the stock market.
